Cairo Beans

Brand Guidelines & Menu Reference - v1.2 - New Cairo, Egypt

1. Brand idea

Cairo Beans exists to make specialty coffee feel like an everyday ritual in New Cairo. The brand is warm, curious and a little playful. We roast in small batches and we teach people what they are tasting.

2. Brand colors

Primary: Espresso Brown #3B2416

Secondary: Crema #E8D5B7

Accent: Teal #1F7A6B

Neutral: Charcoal #22201E

Accent colors are reserved for CTA buttons and price tags. Never place body copy on Espresso Brown.

3. Typography

Headlines: Playfair Display, Bold.

Body: Inter, Regular / Medium.

Never use all-caps for body text. Keep headlines under 8 words.

4. Tone of voice

Warm, direct, lightly playful. Short sentences. Contractions are fine. We explain the coffee without talking down to the customer. Encouraging over instructive. Zero pushy sales language, zero shouting. Emojis are allowed sparingly, at most one per post, and never in the first line.

5. Visual style

Warm natural light photography, matte finishes, visible texture of beans and crema. Shots of hands preparing coffee are welcome. Overhead flat lays for the menu. Soft shadows, no harsh filters.
Video: short (7-15s), handheld, sound-off readable with captions.

6. Do / Don't

Do: name the origin, the roast level and the tasting notes.

Do: celebrate the neighborhood, the farmers, the baristas.

Don't: use stock-photo smiling models with paper cups.

Don't: use more than three colors in one layout.

Don't: post price-shaming or "best in town" absolutes.

7. Photography and assets

Logo files are provided as logo_dark.svg, logo_light.svg and a one-color stamp version. Minimum clear space around the logo equals the height of the crema letter. Never stretch or recolor the logo. Menu photos are shot on a matte beige surface.

8. Logo

The wordmark reads "Cairo Beans" in a serif with a small bean glyph replacing the dot of the 'i'.
